Interested in a career in PHARMACEUTICAL SCIENCE?
What a tremendous opportunity

Come listen to and ask questions of:

MARK MA
of
Alexion Pharmaceuticals
and the
American Association of Pharmaceutical Scientists

AAPS members primarily come from a pharmaceutics, biopharmaceutics, or pharmacy field of study. AAPS members also represent those scientists from complimentary disciplines, such as chemistry, biology, engineering, and medicine, involved in the discovery, development, and manufacture of pharmaceutical products and therapies.
