

ChE (2014) Alumna: Jean Smith

- I am a process control application engineer at ExxonMobil in Houston, Tx. Prior to joining ExxonMobil, I completed summer internships at Abbott Laboratories and Ashland Specialty Ingredients, and a six month co-op in controls engineering at AbbVie Bioresearch Center.
- At UMass I completed an honors thesis on nutrient transport in biomaterials, and an independent study modeling a biofuel fermentation process.
- My hobbies are drawing, crocheting, reading, and playing flute and guitar.
