Field Engineer - Dredging
Cashman Dredging and Marine Contracting Company, LLC - East Coast USA (Greater Boston Area)

Job Description
Cashman Dredging is an Equal Employment Opportunity employer.

Location: USA
Status: Full Time
Company: Cashman Dredging and Marine Contracting Company, LLC
549 South Street
Quincy, MA 02169
Phone: 617-890-0600
Fax: 617-890-0606
URL: http://www.cashmandredging.com

Cashman Dredging and Marine Contracting Company LLC performs capital and maintenance dredging, environmental remediation dredging, and beach nourishment work in the United States, the Caribbean, and South America. Our growing fleet of dredges includes Backhoe, Clamshell, Cutter Suction, and Trailing Suction Hopper Dredges. A state of the art Drilling and Blasting Barge, Split Hull Scows, Hopper Barges, Boosters, Tugboats, and Survey Vessels round out the fleet of support and attendant plant.

Based in Quincy, Massachusetts, Cashman Dredging operates throughout the East and Gulf Coasts of the US as well as the Caribbean and South America. We are currently seeking Field Engineers with experience in dredging or a related marine field for dredging projects and for work in multiple marine disciplines. Field Engineers are responsible for ensuring a safe work environment during all operations and tasks and for marine surveying or related dredging and marine construction surveying work. Individual will be responsible for document production, and daily quality control and quality assurance monitoring & reporting. Desired candidate must be willing to work demanding schedule and work flexible hours including nights and weekends as required to meet schedule. Extensive travel and / or relocation based upon project assignment may be required.

Main responsibilities:
• Ensuring a safe work environment during all operations and tasks
• Oversee the planning and progress of field operations
• Ensuring that Dredge productivity is maximized
• Performing single beam and multi-beam surveys
• Monitoring all aspects of the project execution

Requirements:
• B.S. in Civil Eng., Ocean Eng., Construction Management, or related dredging experience
• The field position requires extensive travel and work at field locations
• Good physical condition
• Excellent command of the English language (read, speak, and write)
• Ability to manage and self-motivate
• Ability to work independently as well as in a team
• Strong skills in MS-Excel, and Word are required
• Ability to quickly become proficient using marine survey equipment
Company Description
Cashman Dredging and Marine Contracting Company, LLC (Cashman) is a leading provider of Dredging Services in the United States. Cashman performs Maintenance Dredging, Capital Dredging, Marine Drilling and Blasting, Hopper Dredging, and Environmental Dredging. Cashman’s current backlog includes the largest superfund dredging project in US history, and multi-year Capital Improvement Dredging project in New York Harbor.
