The Air Force Research Laboratory's Information Directorate in Rome, NY, is seeking Electrical Engineers, Computer Engineers, Computer Scientists, and Mathematicians at all degree levels for full-time employment with our organization. Candidates whose educational background and experience align with our mission will be invited to spend the day with us on April 27th, 2015. A full day’s agenda will include technology presentations, a tour of our facility, and formal job interviews with our technical and managerial staff.

AFRL’s Information Directorate has over 700 scientists and engineers on site researching and solving the Air Force’s toughest information technology challenges as applied to the air, space, and cyber domains. Located at the Griffiss Business and Technology Park, the Rome Research Site campus is situated on sixty-five acres and houses some of the finest research and development facilities in the country. Our research focus areas include the full spectrum of information technologies including defensive cyber and information operations, information fusion and exploitation, communications and networking, command and control planning systems, secure data sharing and information dissemination, and intelligent information systems technologies.

We offer job qualities such as the opportunity for travel, a chance to further your education, flexible work schedules, and the chance to collaborate and publish with the best of our Nation’s research community. I encourage you to learn a little more about us by reviewing an overview of our directorate or by exploring our economic impact publication.

If you would like to take the next step towards being a member of our team, please reply to this message by April 10, 2015 so that we can review your resume and, if necessary, arrange for your transportation and accommodations. Please be advised that US Citizenship and a 3.0 GPA (which may be limited to your last two years of schooling) is required for employment.

Please feel free to call Steven Farr at (315) 330-2373 or reply to steven.farr@us.af.mil with any questions that you may have. Again, congratulations on your professional and academic accomplishments to date and we look forward to hearing from you by April 10, 2015.

The United States Government does not discriminate in employment on the basis of race, color, religion, sex (including pregnancy and gender identity), national origin, political affiliation, sexual orientation, marital status, disability, genetic information, age, membership in an employee organization, retaliation, parental status, military service, or other non-merit factor. Additional information on AFRL Careers is available from our career site.
